MARC

- Will not Die
- Is an encoding and we can't extrapolate to the new environment

RWO = Real World Object

- Something that provides information about the thing
- IRIs are for machines and not humans
 - <http://viaf.org/viaf/64188423>
 - <http://id.worldcat.org/fast/901476>
- Can be de-referenced to bring back information about the thing

BIBFRAME

- Version 2.0
- Designed to be replacement for MARC
