

23 (research data) Things: creating opportunity in a data driven world

Susannah Sabine (ANDS)

Gerry Ryder (ANDS)

Sue Cook (CSIRO)

23^[research data] things

Australia

Do as many or as much as you want; do them in any order; do them by yourself, or form a group to learn together.

There are many activities to choose from — whether you are new to data; need to extend your knowledge, or want a challenge!

Extend your knowledge and skills about research data by exploring activities, links and much more at ands.org.au/23-things

1 Getting started with research data

2 Issues in research data management

3 Data in the research lifecycle

7 Data citation for access & attribution

8 Citation metrics for data

Ready, set, data!

Build your knowledge of key concepts and issues in research data management.

Repositories for data

Learn about repositories for depositing, managing and discovering research data.

Data citation & impact

Extract value from research data: data citation, impact and metrics.

4 Data discovery

5 Data sharing

6 Long-lived data: curation & preservation

Licensing data
